

The Mystical Creature

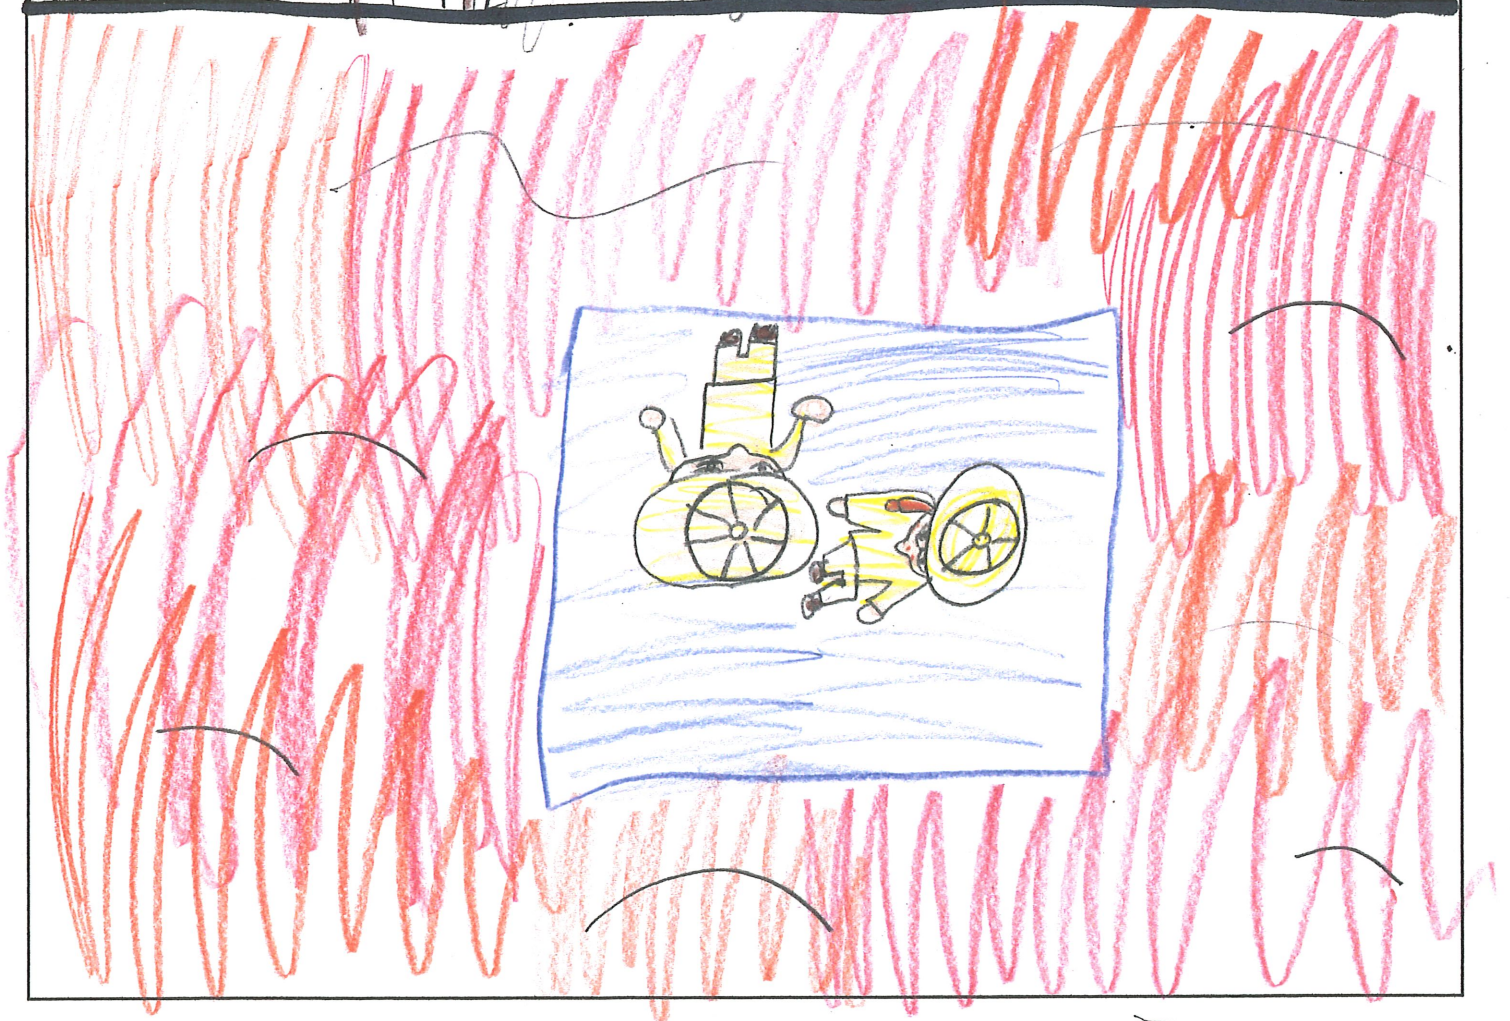

by Lillian Halthus

Once upon a time, there was a boy named Max and a girl named Kate. They were two kids, but not two ordinary kids. You see they are on a mission. They are looking for a dangerous creature that is only found in the forest of danger. And so that's where they are going. But Max and Kate need to be prepared. They are going to bring tape, scissors, mats, and animal crackers, also they need to bring a map so they don't get lost. Now they can go.

Max and Kate first need to travel past mean dogs. They need a plan. They're going to tape the dogs mouths shut so they won't bite. The dogs were guarding a field of Poison Ivy, they need to go through it to get to the forest of danger.

So they used the scissors they brought
and cut a path to walk
through. Once they were through they
came to a lava puddle. Max and
Kate used the mats to sail
across the lava. After they got
past the lava, they came to the forest.
It was very dark.

They knew they were close because
Max could hear the mystical creature's
song. It went like "whaaaaa"! Finally
for the moment of truth Kate pecked
up from the bush to find ...

There baby sister ?

We'll give her
animal crackers!

Whaaa!

Max, Kate go
make your sister stop
crying.
