

# The Tooth Fairy

One night when I was asleep, the tooth fairy came. When I woke up, I looked at my dresser, and it was ginormous. I looked at my sister Elodie, she was ginormous! I looked at the toilet, it was ginormous! I turned around, and I had wings!

I looked at the water cup, and my tooth was still there! Beside the cup was a fairy. She said in a tiny voice, "I'm sorry! I sprinkled magic fairy dust on you! Come with me to get the un-fairy dust."

I flew out of bed and followed the tooth fairy out of the window. We flew for 16 hours. Then we were in Magic Flying Fairyland. It was amazing, but I was tired, and I wanted to get back to my cozy bed.

I said, "OK, where's the secret unfairy dust?" The fairy said, "We're almost there. Only 100 miles to go!" We finally found the dust, flew back home, and I got in my bed. The fairy sprinkled magic unfairy dust on me.

When I woke up, my tooth was gone and there were quarters in my cup, and a little bit of glitter in my hair!
